CUSTOMER HAPPY WITH Yes

DEFECT STATEMENT

'This was the easiest project of this type I have managed and this was solely down to the Willmott Dixon team'

'We thought it would be a challenge to meet the standards delivered by Willmott Dixon on the previous project (Sibson Building) but this team have comfortably done just that'

'There was a good standard of cleanliness on site and the Willmott Dixon team jumped on any issue very quickly'

'The project finished on time and under budget – a great result. Also the project was final accounted before Practical Completion which has never happened to me before!'

'I took the head of Estates Department round the project, he was impressed and hopefully this bodes well for future work with the University'

'The project was enjoyable to work on'

Mark Ashmore - Project Manager, Estates Department - University of Kent
